

Phrasal Verbs in Sentences

Type I and Type II phrasal verbs occur at the ends of sentences (where they can carry primary stress) or inside sentences (where they may not carry primary stress).

- a. Look through your Focus Text to find two additional examples of each category and write them down. If two examples from each category are not there, go to other sources to complete the count.
- b. Mark the primary stress of each phrase, including your additions.
- c. Mark the heaviest stress or stresses of each phrasal verb.
