SAVE A TREE!

If you want to print out the assignments of each week from the Web, how should you do this?

DO NOT press the printer icon in Internet Explorer to do this. The printer icon on the toolbar will print out the entire set of assignments beginning with Day 1, a very wasteful, expensive, and time-consuming process when all you really need is the most recent assignments.

INSTEAD, use Option 1:

1. With your mouse, click and drag the highlighting over the text you want to print.
2. Click on **Print** under the File menu, then choose **Selection** (in the Print Range box) by clicking on the radio button to the left.
3. Click OK to print.

OR Option 2:

1. When you find the assignments you want to copy, click and drag the highlighting over the text.
2. Click Edit in the toolbar to **Copy** the text to the clipboard.
3. Then open your word processor (e.g. MS Word or Corel WordPerfect) and click Edit in the toolbar to **Paste** the text onto your page.
4. Print your word processor page.
