

Astronomy 210 Spring 2011
Homework Set #5 – Erratum

Problem 2, Part (d)

This part of Problem 2 had two typos in references to earlier parts of Problem 2. In 2(d), the system you should consider is that of 2(c), i.e., the star of luminosity $0.1L_{\odot}$ and mass $0.5M_{\odot}$.

Management regrets the error.
